

WASHINGTON, SUNDAY, JUNE 10, 1906.

CHRISTIAN SCIENCE  
CHURCH DEDICATEDMagnificent Structure in  
Boston Completed.

LARGEST IN THE COUNTRY

Built as Result of Spontaneous Recog-  
nition of Mrs. Eddy's Life Work  
and Demands of Congregation.

BOSTON, Mass., June 9.—The dedica-  
tion tomorrow of a magnificent new ad-  
dition to the Mother Church of the  
Christian Science denomination, in Bos-  
ton, is an event of the highest signifi-  
cance in the history of this religious  
body. The interest of all Christian Sci-  
entists is centered on Boston and thou-  
sands from all parts of the world are  
thronging the historic old city. The  
regular communion of the Christian  
Science Church always brings a multi-  
tude of its adherents to Boston, but the  
dedication of the new structure this  
year has made the attendance unusually  
large.

Built as the result of a spontaneous  
recognition of Mrs. Eddy's life work  
and of the imperative demands of the  
marvelous growth of the movement, ex-  
pressing the liberality of thousands of  
Christian Scientists, and embodying the  
best in architectural design and modern  
construction, this new building is logi-  
cally the central feature of this year's  
gathering, although Christian Scientists  
say that they lay the greater stress up-  
on the spiritual awakening which has  
inspired the generous liberality express-  
ed.

## Facts About New Church.

The church is one of the largest, if  
not the largest, in the United States,  
its seating capacity being 5,012. Its style  
of architecture is Italian Renaissance.  
The pews and other interior woodwork  
finishings are of mahogany. The walls  
are Concord granite and Bedford stone,  
with beautiful decorative carvings. The  
inside finish is a soft gray to harmonize  
with the Bedford stone columns sur-  
rounding the dome. The height of the  
building to the top of the lantern is 224  
feet, just one foot higher than Bunker  
Hill Monument. The dome is eighty-two  
feet in diameter and is covered with  
terra cotta to match the Bedford stone.  
The building presents a stately, dignified  
and impressive appearance, and it is al-  
ready recognized as one of the land-  
marks of Boston.

The first floor contains the various of-  
fices, a large foyer, Sunday school room,  
cloak rooms, etc. There are twelve  
elevator and seven staircases. The cost of  
the building is something less than \$2,-  
000,000. The new chimes consist of eleven  
bells. The largest bell, which is a  
sharp, weighs 4,000 pounds. The small-  
est bell weighs 400 pounds. The organ is  
necessarily one of the largest in the  
world. It is strictly up-to-date and  
contains all modern appliances.

## Remarkable Growth.

The original "Mother Church" which  
adjoins the new building seats about  
1,200, and yet three Sunday services are  
required to accommodate the attend-  
ance. It is said that when this edifice  
was planned some of the members were  
distracted on account of its size. They  
thought that the provision of so large  
an auditorium was entirely uncalled for,  
the attendance at that time being only  
about 650.

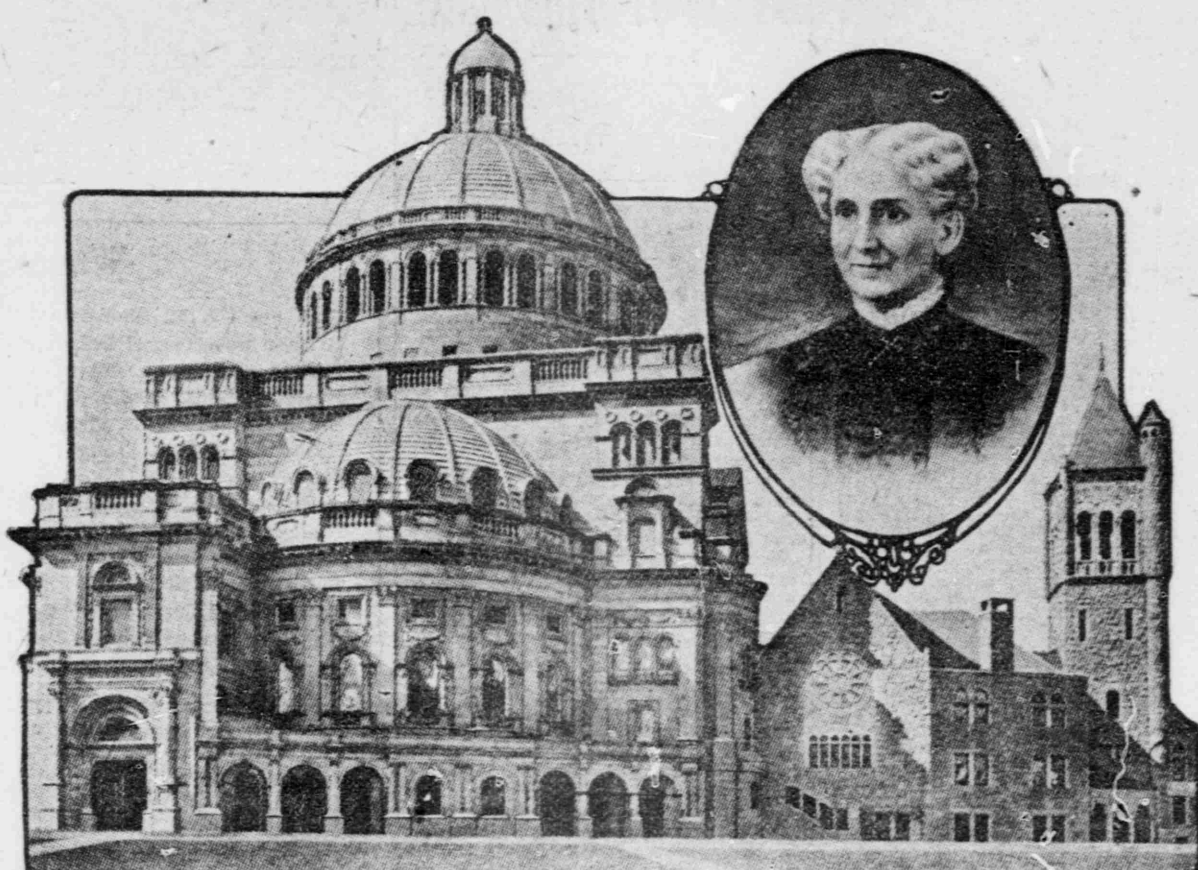

Mrs. Eddy organized the First Church  
of Christ, Scientist, in Boston in 1879  
with twenty-six members. So slow was  
the growth of the movement at first  
that in 1889, ten years later, there were  
only eleven churches. From that time,  
however, the growth was more rapid.  
In 1890 there were 301 churches. At the  
present time, 1906, there are 657 churches  
and 275 societies not yet organized as  
churches, making 932 societies holding  
church services. In 1889 there were only  
450 members in the entire connection.  
In 1894 the total membership was 2,536.  
Five years later it had reached 18,124.  
These figures show that the principal  
growth has taken place during the past  
seven years. The membership at the  
present time is about 72,000.

WEALTH FINDS DEFENDER  
IN COLLEGE PROFESSORCelebrated Economist Declares That  
Poor as Well as Rich Are Grow-  
ing Richer.

CARLISLE, Pa., June 9.—Profound in-  
terest was aroused by the speech de-  
livered by Prof. Leon C. Prince to the  
graduating class of Dickinson Law  
School, in which he declared Socialism  
and defended wealth. Prof. Dickinson  
has the chair of economics at Dickinson.  
He is twenty-nine years of age and is  
widely known as an orator throughout  
Pennsylvania.

"A few years ago New York Demo-  
crats demanded Federal confiscation of  
the coal mines," Prof. Prince said, "and  
now the President of the United States  
advocates Federal regulation of life in-  
surance and the confiscation of private  
income under the thin disguise of a pro-  
gressive inheritance tax. The indis-  
criminate abuse of wealth by blather-  
skite reformers has bred hatred in the  
hearts of thousands, which finds its  
natural vent in clamorous demands for  
Federal intervention and control. The  
appetite for interference grows with  
what it feeds upon. We are entirely too  
much governed. The end and aim of  
most of the legislation today is to pro-  
vide fat jobs for hungry politicians.  
"It is not true, as howling demagogues  
maliciously assert, that the rich are  
growing richer while the poor are grow-  
ing poorer. The rich are growing richer  
and the poor are growing richer, too.  
If capital was never so busy and pro-  
ductive as today, never was labor so  
widely employed or so well remunerated.  
Never before was wealth so sensible of  
its duties as now."

## MAGNIFICENT CHURCH AND MRS. EDDY

MEMORIAL SERVICES  
HELD BY VETERANSUnion Legion, No. 69, Honor Ten Com-  
rades Who Have Died During  
the Past Year.

Memorial services were held last night  
by Encampment No. 69, Union Veteran  
Legion, at their hall, 910 Pennsylvania  
avenue, in honor of their ten comrades  
in arms who have died during the past  
year. The impressive services, which  
were attended by a large gathering of  
the relatives and friends of the veter-  
ans, were conducted by Col. A. Howitt  
Nickerson, Lieutenant Colonel Ray-  
mond, and Adj. W. J. Weiss.

In two stirring addresses E. E.  
Thompson and Colonel Nickerson paid  
glowing tributes to the ten deceased  
members of the encampment. Adju-  
tant Weiss then read the roll of honor,  
which was followed by the crowning  
of ten empty chairs with wreaths of  
laurel, representing the ten dead mem-  
bers of the command. George A. Bart-  
lett, Nathaniel Shattwell, John M.  
Welby, Thomas Jackson, Dennis Con-  
nor, Henry C. Lubengell, John D.  
Creighton, Isaac N. Richardson, C. W.  
Hudson, and A. P. McElroy.

Mrs. Florence Donohue, rendered a  
beautifully illustrated "The End of  
Chairs," and Prof. James Joyce con-  
cluded the services with "Taps."

"WITH  
HIGHEST  
HONORS"

Our 30TH BIRTHDAY SALE  
has aroused more popular enthusi-  
asm than any trade-event of our entire career. It's  
been such a big drawing-card that we've decided to  
continue it again this coming week—BUT WITH  
MUCH ADDED INTEREST FOR YOU.

Among this week's absorbingly attractive "Birthday Specials" you'll find just  
the sorts of shoes needed for School and College Commencements.

Big "Birthday" Sale of Men's and Women's Fine

UNCLE SAM FINDS  
ENGINEERS SCARCEHard to Keep Them In Rec-  
lamation Service at  
Salaries Paid.

The inauguration of many large en-  
gineering works at this time, such as  
the National Reclamation Projects, the  
Panama Canal, and the New York  
Barge Canal, and the unusual amount  
of railroad building, has so stimulated  
the demand for engineers that it is  
found difficult to hold good men at the  
salaries the reclamation service is now  
paying.

About forty engineers of various  
grades have resigned from this bureau  
in the past year, and a similar number  
have requested furloughs. The emolu-  
ments of a Government position are sel-  
dom commensurate with the value of  
the services rendered by the engineering  
profession, and but for the magnitude  
of the works projected by the Govern-  
ment and the opportunities offered to  
obtain distinction in their construction,  
few engineers of ability would seek  
these positions.

The gravity of the situation is appre-  
ciated, and is giving the department  
much concern.

ALMAS TEMPLE OUTING  
FOR A WORTHY CAUSE

The annual excursion of Almas  
Temple, Nobles of the Mystic Shrine, to  
Marshall Hall will take place Monday,  
June 18. This event is for the benefit  
of the Christmas charity fund.

This occasion is looked forward to  
with interest by all members and friends  
of the order.  
The athletic committee has arranged  
many interesting events, and valuable  
prizes will be donated to the successful  
contestants. The illustrious potentate,  
Jacobus Seneca Jones, promises that  
excursion will be the largest ever held  
by the Shrine, and requests every noble  
to take a day off to enjoy the fun.

CUT OFF GIRL'S HEAD  
IN MOUNTAIN CABINItalian Murders Mistress, Is Foiled in  
Attempt to Commit  
Suicide.

NEW MARTINSVILLE, W. Va., June  
9.—After cutting off the head of his mis-  
tress with a five-inch knife, Giuseppe  
Cerni attempted to kill himself in the  
same way yesterday in his cabin at Mt.  
Carbott, four miles east of Montgomery,  
Payette county. He failed owing to the  
quick arrival of Detective Payne, who  
hurried him to the county seat at Fay-  
etteville to prevent lynching.

The cabin showed evidence of a desper-  
ate struggle on the woman's part. She  
was young, good looking, and exten-  
sively attired. She had joined the  
Italian only two days previously.

PLAY ABOUT GAPON  
WILL BE PRODUCED

PARIS, June 9.—A new play entitled  
"Gapon," and dealing with the life of  
the famous Russian who has recently  
met with such a dramatic end, is about  
to be produced here. The play is by M.  
Leprieux Fabrice and Valentin Tranel. It  
is in three acts.

WYNNE'S OFFENSE  
MADE IN WRITINGAccused Pleads That At  
Most He Committed Error  
of Judgment.

NEW YORK, June 9.—Both the prose-  
cution and the defense in the court-  
martial of Capt. R. F. Wynne, of the  
Marine Corps, held on board the Penn-  
sylvania at the Brooklyn Navy Yard,  
rested today. The accused, through  
his counsel, asked permission to sub-  
mit a written statement of explana-  
tion, which was granted.

In his statement the captain declared  
that if he had disobeyed orders on May  
21, when he refused to go on deck  
after he had been instructed to do so  
by Lieut. Commander Bryan, of the  
Alabama, he had refused because he  
considered that such orders clashed  
with other given to him by Rear Ad-  
miral Evans, who had instructed him  
to sit as a member of a court-martial  
on the Indiana. At the most, the ac-  
cused pleaded, he had committed an  
error of judgment, and such an error  
was excusable by the testimony as to  
his mental condition given by Dr.  
Decker.

"I believe," said the accused, "that  
Lieut. Commander Bryan was, and is,  
prejudiced against me."  
In conclusion Captain Wynne begged  
permission to call attention to his serv-  
ice in Cuba, in the Philippines, and in  
China. He said he was confident that  
his record was an honorable one.

CONFEREES HAVE AGREED  
ON QUARANTINE BILL

The conferees on the national quaran-  
tine bill reached an agreement yesterday  
afternoon. Section 7, which made it a  
misdemeanor for any one to stop an  
interstate train to prevent its reaching  
its lawful destination, was stricken out.  
This provision had met strong opposi-  
tion from the South, because it would  
interfere with the well established shot-  
gun enforcement of a yellow fever quar-  
antine.

BERTILLON SYSTEM  
FOR CANAL LABORModern Method to Be Used  
in Guarding Against In-  
ferior Workmen.

The Bertillon system of identification  
of laborers is to be adopted on the canal  
zone, according to a statement made by  
a reliable authority in Congressional  
circles.

This question of keeping track of the  
laborers on the canal work, particularly  
the Jamaica negroes, has been under  
consideration by Secretary Taft, Chair-  
man Shonts and other canal officials for  
some time.

Although this system was originally  
for the identification of criminals, it is  
declared that it will prove of great value  
to the Government and save the men in  
charge of the construction work much  
trouble, time and from imposition of  
worthless laborers.

In this connection, it develops that the  
Government at the present time is being  
fleece by the native laborers and those  
from Jamaica. When a man is found to  
be incompetent, he is discharged. It is  
now possible for him to apply at the  
next camp, and labor being in demand,  
find immediate employment.

There is no safe way of identifying the  
men that have been discarded. The pho-  
tograph system was tried, but it was  
found inadequate as all faces look alike  
among the hundreds of Jamaicans and  
names signify nothing.

When the Bertillon system is put into  
operation, if for any reason a laborer is  
discharged, his description will be for-  
warded to every other camp in the zone.  
Men thus blacklisted will be promptly re-  
jected when applying for jobs.

\$1.00 Harpers Ferry, Charlestown, Win-  
chester and return, June 17. From Bal-  
timore & Ohio Station, 8:30 a. m. Re-  
turning leave Winchester 6, Charlestown  
6:40, Harpers Ferry 7 p. m. same day.  
Splendid opportunity for day's outing.

## MAYER BROS. &amp; Co.

## The Things to Wear Now

Sweltering summer days find us prepared with tempting assortments of the cool and pretty  
things women love to wear for hot-weather comfort. We call especial attention to our Waist Depart-  
ment for fashion's latest whims in dainty, sheer waists. In White Suits we show some especially be-  
coming styles, and our Millinery leadership is well known.
